Wire fraud is a serious problem

Cyber criminals target you and other real estate transaction participants in order to steal funds that are being transferred during closings. They hack emails, impersonate title companies and spoof your real estate agent in an effort to trick you into sending funds to fraudulent bank accounts that they control. Each year, cyber criminals steal hundreds of millions of dollars from real estate fraud victims.

Do not trust wire information outside of ClosingLock

Do not trust anyone who reaches out to you in an attempt to provide wire instructions. This includes phone calls, emails, links, attachments, letters, etc. If you have any questions, call your title company on a phone number that you get directly from their website.
